Ethan Borg

647-824-4472 | ethan.borg91@gmail.com | linkedin.com/in/ethan-borg | github.com/ethanborg91

EDUCATION

University of Western Ontario · Honors Specialization in Computer Science **Sept. 2020 - Present**

- **Courses:** Data Structures, Databases, OOP in C++, Network Security, IBM Z Xplore
- Scholarship of Distinction, 2022 and 2023 Dean's Honor List

SKILLS

Programming Languages: Java, Python, C, C++, HTML, CSS, JavaScript
Technologies: MySQL, ReactJS, PostgreSQL, Linux, Jira, Agile, Bash, Git, REST API's

PROJECTS

Personal Website (URL – ethanborg91.github.io)

- Created a personal website that holds information about myself, my hobbies, and projects.
- Created using the languages of HTML and CSS while hosted on GitHub pages.

PERN Stack Todo List

- Created an application that would allow the user to create, edit, and delete Todo list tasks using the PERN stack (PostgreSQL, Express.js, React, Node.js).
- Utilized RESTful APIs built with Express.js to handle CRUD operations which are displayed to the client side with ReactJS.
- Used a PostgreSQL relational database to store tasks from user input and respond to fetch calls.

Password Generator

- Created a web application that will generate a password for the user. The user can select the length of the password as well as its containment of uppercase letters, lowercase letters, numbers, and symbols.
- Created with JavaScript, HTML, and CSS having a clean and simple UI.

RELEVANT EXPERIENCE

Ivey Business School, London ON, Canada **Sept. 2023 – Present**
Project Developer

- Worked alongside Dr. Sergio Lazzarini, a multiple research award recipient, on creating a data importation tool and pruning algorithm. A project aimed to optimize "Theory of Change" models, resulting in an 80% time reduction for the theory evaluation process.
- Formulating a thesis based on this software to improve the identification of primary strategy nodes that could potentially focus on subproblems addressed by the original theory of change.
